

DMI Environmental Policy

DMI Office Furniture is committed to and adheres to all Indiana State [IDEM] and United States Federal Environmental Laws in regard to pollution prevention, energy conservation, water conservation, GHG reductions, disposal of solid and/or hazardous waste. DMI maintains internal programs to reduce the impact on the environment of our products and operations including recycling of scrap.

Environmental Mission, Initiatives and Procedures

DMI is active in the local communities around Huntingburg, Indiana and donates to local organizations, community centers and supports the Business Program at local high school in the community. Florida DMI Servicing Dealers are active in their local Florida communities and support their local communities in a variety of ways.

Health and safety of the Employees and Dealers for DMI are a primary focus of DMI Office Furniture. Regular safety and industrial meetings are held for employees at the factory. DMI product is shipped to Servicing Dealers with any pertinent warnings for safety and all cartooning meets or exceeds industrial standards for product cartons.

Dealers are encouraged to salvage usable parts of damaged product and DMI donates usable product through the Florida Servicing Dealers to nonprofit organizations.

Internal programs to reduce the impact on the environment are observed including, but not limited to, recycling of cardboard and Styrofoam within the plant operations in realization of the environmental mission. Boxes supplies are received in are re-used to send out literature and finish samples to Reps and Dealers. Florida Reps in turn use these supplies boxes to ship and take supplies to local Florida Dealers. Every effort is made to use 35% recycled material post-consumer and/or post-industrial.

DMI posts on DMI website product brochures available to all endusers and maintains a designated website for use by DMI Authorized Dealers that allows for processing orders and all related paperwork both open and shipped order information, inventory levels and reporting functions. This site works as a marketing tool and encourages use of electronic communication as a conservation of paper products.

DMI Office Furniture meets all GSA Standards for GSA Contract GS-28F-0019L and meets the BIFMA standards for being a member of BIFMA International.
